Spirituality in French

.**Kapow French**

Learning a new language allows pupils to explore cultural diversity and gain new perspectives. Through Kapow French, children are encouraged to reflect on their own experiences and beliefs while learning about different traditions, customs, and ways of life. Activities such as role-play, conversations, and presentations develop confidence, self-expression, and empathy.

The curriculum also encourages awe and curiosity as pupils discover how language shapes thought and identity. By comparing their own culture with others, children develop an appreciation of differences and a sense of connectedness to the wider world. Reflection on communication challenges, successes, and mistakes supports personal growth and resilience.

Through engaging and creative tasks, pupils are given the space to consider ethical questions, personal responsibility, and collaboration, helping to develop both social and spiritual understanding within the context of language learning.

Example:

Kapow French

- Scheme: **Kapow Primary French**
- Unit examples: *Greetings and Introductions (Year 1)*, *Food and Drink (Year 3)*, *My Town (Year 5)*

Spiritual opportunities: Pupils reflect on other cultures, appreciate diversity, develop confidence in self-expression, and consider ethical and social aspects of communication.
